We offer services for all aspects of corporate and business law, including appropriate tax and legal advice to help clients select the proper entity, be it a general or professional corporation, sub-chapter S corporation, limited liability company or partnership. We are experienced in drafting appropriate formation and organizational documents, including buy/sell agreements and partnership, shareholder and operating agreements. We assist in drafting and reviewing contract documents for the entity's customers/clients, employees and vendors and handle all aspects of commercial real estate transactions, including finance, leasing, purchases and sales. We advise small business owners on estate planning issues, including protecting estate liquidity, reducing estate taxes and succession planning for family-owned businesses.
