Lawrence P. Powers, 732-545-4717, lpowers@hoaglandlongo.com

Public construction projects require a keen understanding of the state's public bidding laws. These laws provide specific requirements for the preparation of bid proposals, product selection, bid awards, and procedures for bid protests. The bidding process and protests are often a fast-paced procedure requiring a specific knowledge of the public bidding laws. Our firm has the knowledge and experience in dealing with such laws and have successfully represented bidding clients when protests become necessary.
